

10. How to Prosper in Hard Times

Prospering in hard times continuing

The Lord put a gift in you before you were born.

A story I heard today was that a pastor from a poor nation started his meeting with a handful of money to give to his people.

They were given amounts like \$17 and \$15 but they were told not to give it away

They were told to go and turn it into more money

One lady argued with him and said she couldn't do anything and kept trying to give the money back but the pastor insisted she take it and obey the instructions

She was shocked but decided to go home and make pancakes. She contacted her pastor and he said go down to the market and sell them

She did that and they all sold to her surprise

As she continued she got better and her pancakes became highly sort after.

This became a very large business

Many others saw this and came asking questions and applied the same principle

It was not long before the leaders of the town came to check out what was happening and the town was beginning to prosper This is like the story of the talents.

You are gifted

You are called to make a difference

You are to apply your gifts to better yourself and as you do you'll encourage others to do the same

You are not to be a drain pipe with money in money out Your to use some of your income to develop your gift.

If you just keep giving it away you'll always have lack.

No matter how small the money you have, seek Him and ask Him what you are to do with it to make more.

We will always have the needy with us Jesus said & we need to train them how to see their lifestyle change He loves you and wants to bless YOU
