## The Lord is Calling

The Lord is calling His remnant to dig in deeper

What is His remnant?

They have paid the price to follow Him.

Obedience is one of their hallmarks.

They have allowed the working of God.

They have walked away from religion.

They will follow Him and put Him before people.

They don't find it difficult to rise early because they want to spend time with HIM

They know His voice.

They are not seeking a platform but they seek HIM.

They seek Him daily for direction.

they love His anointing.

People misunderstand them.

They have trouble being around negativity, as they guard the anointing and His presence.

They allow people to speak into their lives.

They have no time for religion, they value their relationship with The Lord.

Because of that they will breathe life to those around them.

this is what The Lord is raising up in this hour.

Are we ready?

Which road are you on?
